DETAILED ACTION

In view of the Appeal Brief filed on April 27, 2007, PROSECUTION IS HEREBY REOPENED. A new ground of rejection is set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

- (1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,
- (2) request reinstatement of the appeal.

If reinstatement of the appeal is requested, such request must be accompanied by a supplemental appeal brief, but no new amendments, affidavits (37 CFR 1.130, 1.131 or 1.132) or other evidence are permitted. See 37 CFR 1.193(b)(2).

Election/Restrictions

Restriction to one of the following invention is required under 35 U.S.C 121:

A. Claims 1-33, 42, 45-53 and 62 are drawn to a method for inducing a contact, in which a contact name is included in a resource location description, classified in **class 705, subclass 14**.

B. Claims 43 and 63 are drawn to a method for conducting a promotion in which a name of the promotion is included in a network address, classified in **class 705, subclass 14**.

Art Unit: 2143

Although the inventions fall in the same subclass, they are distinct from each other for the following reasons: Inventions A and B are directed to related processes. The related inventions are distinct if the inventions as claimed do not overlap in scope, i.e., are mutually exclusive; the inventions as claimed are not obvious variants; and the inventions as claimed are either not capable of use together or can have a materially different design, mode of operation, function, or effect. See MPEP 806.05(j).

In the instant case, within invention A, the method comprises including a contact name in a resource location description. Within invention B, the method comprises including a name of the promotion in a network address

Because these inventions are independent or distinct for the reasons given above and the inventions require a different field of search (see MPEP section 808.02), restriction for examination purposes as indicated is proper.
